

# About Goats

by: \_\_\_\_\_

Draw a line to connect the breed of goat with the correct product.

There are different breeds of goats. Alpine and Nubian goats give us milk. Cashmere goats have warm hair that can be spun into yarn. Boar, Spanish and Pygmy goats are used for meat.

A female goat is called a doe. A male goat is called a buck. A young goat is called a kid.

Goats can browse (eat) a wide variety of shrubs and plants. They help create “fuelbreaks,” that may prevent wildfires from burning homes and businesses.

Glue small pieces of red, yellow and orange tissue paper on the fire.

Goats will stand on their hind legs to reach leaves on trees and tall bushes.

A fact is true. A myth is false. Read the sentence and circle whether the sentence is a fact or a myth.

**Fact Myth**  
Goats like to play.

**Fact Myth**  
Goats eat garbage.

**Fact Myth**  
Goats like to be alone.

Goats are curious and like to play, run, and jump. They especially like to climb on rocks and other high objects. They enjoy being with other goats. They do not like to be alone. Some people think that goats eat garbage, even clothing, but this is not true. They learn by feeling and tasting things with their lips.
